

Muhammad Usman

React & React-Native Developer

Profession Summary

React Developer specializing in frontend web and mobile development with **React.js** and **React Native**. Experienced in building scalable applications with clean architecture, state management, and **UI/UX** optimization. Proficient in **JavaScript** (ES6+), **TypeScript**, **Redux**, and **RESTful APIs**. Improved application performance and user experience by optimizing code, reducing load times, and implementing efficient state management. Worked in Agile teams using **Git** for version control and CI/CD workflows.

WORK EXPERIENCE

Structures Limited, Islamabad, Pakistan

Remote

Web Developer (React.js)

08/2024 – 10/2024

SKILLS

Languages:

- JavaScript
- CSS
- TypeScript
- Git
- RESTful APIs
- Responsive Design
- Authorization & Authentication

Libraries and Frameworks:

- React
- React Native
- Tailwind CSS
- Express Js
- Mongo DB
- Next
- Redux Toolkit

Development Software:

- GitHub Desktop
- Yarn & npm
- Git command Line
- Figma
- Postman
- Firebase

Soft Skills

- Debugging and troubleshooting
- Working effectively in teams
- Adjusting to new technologies and workflows
- Meeting project deadlines efficiently

Languages:

- Urdu (Native)
- English (Conversational)

EDUCATION

University of the Punjab

Bachelor of Science in Information Technology (BSIT)
Lahore, Pakistan
12/2022 – Present
